

## Connecting the worlds of metal and plastic

# Get to know the new ELGEF Plus Transition Adapter

The new component enables a safe transition from metal to PE pipes and vice versa forming a vital part of any water and gas distribution network. If used for tie-ins of PE piping in your existing systems, repair work or installation of water meters, the transition adapter can be installed uncomplicated and reliably.

### A few benefits of the adapter:

- Lead-reduced brass alloy
- Increased gas tightness thanks to gasket
- Electrofusion and buttfusion compatible
- Improved corrosion resistance
- The product is certified by
