

INSTAFLEX Prefabrication

Customized solutions

Benefits with INSTAFLEX

Time is money

Prefabricated pipes can save up to 30% of the total installation costs.

Processing safety

The risk of leaks is minimized thanks to the industrially prefabricated pipes by experienced welders and the regular training of the installers on site.

GF design

Isometric prefabrication drawings and key plans are created from the customer's CAD plans.

Sale on site

The sales engineers work with customers on site to find solutions for their projects.

Direct delivery

The prefabricated pipes are delivered directly to the property. The additional material is supplied by wholesalers.

Prefabrication in building technology

In the best hands from consultation to delivery
