Completing the system range with small sizes

+ One complete system

Complete pre-insulated piping solution for confident insulation, including pipes, fittings, valves, and tools.

+ Bridging big to small

Additional dimensions extend the range to reach the cooling unit for greater system performance and assurance.

+ Plug and play

Mechanical connections mean significantly less tools, easy handling, and faster installations.

+ Maintenance-free operation 24/7

Designed for 25 years and made of cutting edge materials and proven jointing technology, our product delivers reliability and longevity.

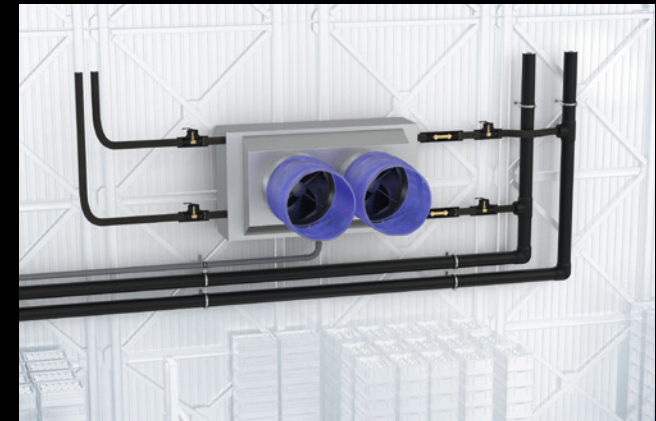

Industrial and commercial refrigeration goes beyond mere temperature control. It's about ensuring safety in production processes and stored food preservation. COOL-FIT 4.0 Push System, a high-quality plastic solution, eliminates cold chain interruptions and minimizes product losses due to corrosion. Ideal for temperatures ranging from -20°C to 60°C , it's the reliable, maintenance-free choice for food and beverage processes, cold stores, and more.

Application areas

Process cooling in food & beverage and industrial productions.

Controlled environment for cold stores.
