Gregory Fourgeaud is new Head of Battery Production EMEA for GF Piping Systems

With a wealth of experience in business development and contract management, Gregory Fourgeaud will drive sustainable practices in battery manufacturing within GF Piping Systems. Meet him at the Battery Show in Stuttgart, Germany, from 18 to 20 June 2024.

Gregory Fourgeaud joined GF Piping Systems as Head of Battery Production EMEA in April. He holds a Master of Science from London South Bank University in Quantity Surveying. Gregory Fourgeaud previously held various management roles within the ENGIE companies, a French global player in low-carbon energy and services and now joins from EQUANS Process Industries part of the Bouygues group, where he was most recently Business Development Director Europe.

Gregory Fourgeaud about his new role at GF Piping Systems: “As we progress along the green road to a transport revolution by transforming the battery manufacturing landscape, we have adopted the mission to create a framework in which sustainable practices and operations are strong enough to propel this newly emerging energy segment forward. I’m delighted to be at the heart of sustainable manufacturing with GF Piping Systems”.

Starting June 18 to 20 in Stuttgart, Germany, GF Piping Systems will attend the 2024 Battery Show which focuses on innovations in battery and electric vehicle technology. Visitors will be able to experience GF’s portfolio of high-performance thermoplastics for chemical transport and treatment in battery production, the holistic portfolio of valves, actuation, and measurement instrumentation for process automation as well as the company’s advanced engineering and prefabrication capabilities for fast and easy project implementation. Also, GF is presenting its unique pre-insulated and vapor-proof plastic piping system COOL-FIT for cooling applications which helps to improve the energy efficiency of cooling loops.

GF Piping Systems is applying its knowledge of lightweight and corrosion-free systems to the needs of the battery sector, focusing on applications from energy-efficient cooling and water treatment to process automation.

Meet Gregory Fourgeaud and GF Piping Systems at the Battery Show in Stuttgart from 18 to 20 June 2024 in Hall 8, booth 8-F81.

GF Piping Systems

As the leading flow solutions provider for the safe and sustainable transport of fluids, GF Piping Systems creates connections for life. The division focuses on industry-leading leak-free piping solutions for numerous demanding end-market segments. Its strong focus on customer-centricity and innovation is reflected by its global sales, service, and manufacturing footprint and its award-winning portfolio, including fittings, valves, pipes, automation, fabrication, and jointing technologies.

GF Piping Systems has its own sales companies in 33 countries, which means it is always by its customers' side. Production sites in 40 locations in America, Europe, and Asia ensure sufficient availability and quick, reliable delivery. In 2023, GF Piping Systems generated sales of CHF 2.1 bn and employed 8,798 people. GF Piping Systems is a division of Georg Fischer AG, founded in 1802 and headquartered in Schaffhausen, Switzerland.
