GF Corys completes drainage solutions portfolio with GF UltraFlow

With the launch of the new UltraFlow Drainage Solution, a cutting-edge system that combines GF Piping Systems' renowned quality standards with GF Corys' more than 45 years of local expertise in drainage solutions, the company expands its product and service portfolio. GF Corys solidifies its position as the comprehensive solution provider for all drainage needs across the region.

The UltraFlow range features five innovative systems designed to deliver full coverage and zero leaks, ensuring reliability and peace of mind for customers. Engineered for sustainability, UltraFlow is easier to install, chemical and impact resistant, and tailored to meet specific project needs. Developed in Switzerland and manufactured locally in the UAE, the system is 100% compatible with other GF Piping Systems' drainage systems and includes enhanced delivery services for seamless, on-time project execution.

"With our wide experience with drainage solutions in the Middle East, we are bringing a globally informed yet regionally rooted approach to the market," said Bart van Bastelaere, Managing Director GF Corys. "UltraFlow is part of our ambition to become the leading water and flow solutions provider. It is a testament to our commitment to delivering value throughout the entire project lifecycle while prioritizing sustainability and customer satisfaction and proximity."

UltraFlow is available across the Middle East to serve customers with region-specific solutions and unparalleled service.

This launch represents the company's vision of being a globally informed, regionally focused, and customer-centric partner. By merging innovation with local expertise, GF Corys continues to set the standard for drainage solutions in the Middle East.

GF Piping Systems creates connections for life as the superior water and flow solutions provider for industries and infrastructure, enabling the safe and sustainable transport of fluids.

The division focuses on industry-leading leak-free piping solutions and engineering services for numerous demanding end-market segments. Its global sales, engineering, and manufacturing footprint reflects its strong focus on customer-centricity and innovation, and its award-winning portfolio includes fittings, valves, pipes, vaults, chambers, automation, fabrication, and jointing technologies.

GF Piping Systems has its own sales companies in 33 countries and fabrication hubs in 15 countries, which means it is always by its customers' side. Production sites in 40 locations in the Americas, Europe, the Middle East, and Asia ensure sufficient availability and quick, reliable delivery. In 2023, GF Piping Systems generated sales of CHF 2'100 million and employed 8'798 people. GF Piping Systems is a division of Georg Fischer AG (GF), founded in 1802 and headquartered in Schaffhausen (Switzerland).
