### **H2 ready: GF Piping Systems welcomes Rachel Bros De Puechredon**

**Joining GF Piping Systems Rachel Bros De Puechredon will be responsible for developing and executing the global business strategy for hydrogen.**

Rachel Bros De Puechredon has over 20 years of business experience and has successfully initiated, led, and launched global high-tech renewable energy projects. At GF Piping Systems, her primary focus will be to apply her highly specialized knowledge of the Hydrogen ecosystem, technologies, and sales processes to identify and validate new business opportunities and position GF as key hydrogen player.

"Piping systems are needed across the entire Hydrogen value chain", explains Bros de Puechredon. "From Hydrogen production to distribution and embedded storage as well as end usage, GF Piping systems is the right partner when it comes to tailor-made polymer solutions and customer support. We aim to contribute to the growth of this emerging global Hydrogen market which is a key enabler of the needed energy transition."

With more than 200 years of experience as a leading supplier of piping systems for the safe and reliable transport of liquids and gases, GF Piping Systems aims to utilize its expertise in supporting the hydrogen economy. Its innovative portfolio, including ELGEF Plus, MULTI/JOINT 3000 PLUS and PRIMOFIT has already received H2 certifications by KIWA and DBI. As a result, GF Piping Systems' polymer-based solutions are a corrosion-free and long-lasting alternative for the safe and reliable transport of sustainable energy while also minimizing maintenance costs and reducing downtime. Furthermore, the company's complete solutions allow the Hydrogen sector to optimize their piping systems and further improve their sustainability.

**Meet Rachel Bros De Puechredon live at [the World Hydrogen Summit and Exhibition](#), the leading platform for hydrogen business, in Rotterdam from May 9-11,2023.**

**About GF Piping Systems Ltd.**

As the leading flow solutions provider for the safe and sustainable transport of fluids, GF Piping Systems creates connections for life. The division focuses on industry-leading leak-free piping solutions for numerous demanding end-market segments. Its strong focus on customer-centricity and innovation is reflected by its global sales, service, and manufacturing footprint and its award-winning portfolio, including fittings, valves, pipes, automation, fabrication, and jointing technologies.

GF Piping Systems has its own sales companies in 31 countries, which means it is always by its customers' side. Production sites in 36 locations in America, Europe, and Asia ensure sufficient availability and quick, reliable delivery. In 2021, GF Piping Systems generated sales of CHF 1'971 million and employed 7'686 people. GF Piping Systems is a division of Georg Fischer AG, founded in 1802 and headquartered in Schaffhausen, Switzerland.
